Other than these and the remuneration paid to Mr. Ashok Kumar Gupta, there is no other pecuniary relationship of Mr. Ashok Kumar Gupta, directly or indirectly with the Company or with its managerial personnel.

III. Other information:

- (1) Reasons for loss or inadequate profits:

Internationally, all the leading sugar producing nations, viz., Brazil, Thailand and Australia, follow a formula for sugarcane pricing, whereby the sugarcane price is derived from the prevailing market price of sugar. Whereas in the State of Uttar Pradesh (where all the sugar mills of the Company are located), the sugarcane price is fixed by the Government in an arbitrary manner without any reference whatsoever to the prevailing sugar price in form of State Advised Price (SAP).

The secular increase in sugarcane price year after year in form of high SAP, is in stark contrast to the fluctuating sugar prices that have been comparatively quite low most of the times during last few years. Another disruptive factor was the disparity in sugarcane price in Uttar Pradesh irrespective of sugar recovery, which was much higher than FRP (Fair & Remunerative Price) fixed by the Central Government. Furthermore a large amount on account of various incentives/subsidies under the U.P. Sugar Promotion Policy and the levy sugar price difference is held up with Government authorities. This is resulting in increased debt burden and consequently the interest cost.

The sugar industry in India has suffered a prolonged downturn causing a severe cash crunch to almost all sugar manufacturers. The performance of EBIDTA level is comparable with other companies. However the loss/inadequate profits are due to relatively higher debt burden faced by the Company.

- (2) Steps taken or proposed to be taken for improvement:

The Company has taken certain initiatives towards operational efficiencies which have increased percentage of recovery and production of sugar. Necessary efforts are being made to reduce the debt burden to improve profitability of the Company.

- (3) Expected increase in productivity and profits in measurable terms:

The Company is the largest producer of sugar in U.P. with sugarcane crushing capacity of 1,36,000 TCD. The continuous efforts for improving the operational efficiencies and value-additive utilisation of its by-products are expected to improve the productivity as also the profitability.

The alcohol manufacturing capacity of the Company is 800 KL per day, improved prices of industrial alcohol and ethanol are likely to add to both – Company's top-line and bottom-line.

Company's capability of generating an exportable surplus of 150 MW which can be supplied to the local grid, from its overall co-generation capacity provides the Company with necessary insulation from the cyclicity associated with its sugar business.

In view of the improvement in recovery of sugar in state of U.P., improvement in domestic sugar prices coupled with various positive initiatives taken by the Government i.e. Incentive on exports of raw sugar, Mandatory export of Sugar, Cane subsidy, Fixation of the uniform delivered price for Ethanol, Increase in blending percentage of Ethanol from 5% to 10%, Waiver of central excise duty on ethanol supplies, the Company expects that the productivity and profitability shall improve and would be comparable with the industry average.
